

## T&T: ET&P | Supply Chain & Network Operations I Analyst

### What impact will you make?

Every day at Deloitte, your work will make an impact that matters, while you thrive in a dynamic culture of inclusion, collaboration, and high performance. As the undisputed leader in professional services, Deloitte is where you'll find unrivaled opportunities to succeed and realize your full potential

Deloitte is where you'll find unrivaled opportunities to succeed and realize your full potential.

### The Team

Deloitte's Supply Chain & Network Operations (SCNO) practice focuses on delivering practical, strategy-driven value through advisory services that optimize, reinvent, and improve the supply chain from end to end — design, plan, source, make, and deliver. We tackle organizations' most complex issues by drawing on global capabilities that span all areas of business strategy and operations and industries. The focus therefore is on providing holistic offerings to address client business issues and engaging with them in deploying high impact delivery models that support their overarching business strategy. ### Prime responsibilities as an Analyst

The primary role of an Analyst is to make immediate and compelling insight from analysis of data and process to enhance the clients' competitive position and support critical decisions through analytics

To do this, Analyst must perform the following activities:

- Work closely and collaboratively with teams to analyse client operations, gather data, brainstorm potential options.
- Assist the Supply chain project team with solving complex problems and creating mathematical models.
- Assist project teams in creation of strategies and capabilities to support enterprise-wide decision-making, improve operations, and strengthen stakeholder management • Address client specific needs:
  - Product Development - Integrate and streamline product innovation and product development related processes.
  - Supply Chain Planning - Define processes that balance supply and demand to develop a method that meets sourcing, production, and delivery requirements ✓ Sourcing & Procurement - Enhance spend management services for both indirect and direct material sourcing and supply management.
  - Manufacturing Strategy & Operations - Improve operations of the entire value chain by leveraging lean concepts to help reduce waste and complexity.
  - Logistics & Distribution - Determine the best strategy and practices for moving the right product to the right place at the right time.
  - Supply Chain Analytics - Transform data into intuitive, interactive visualizations that innovate how our clients approach their toughest issues.

### Skills Required

- Bachelor's degree in engineering or an equivalent area of technical study

## T&T: ET&P | Supply Chain & Network Operations I Analyst

- A strong and demonstrated interest in consulting and/or advisory client service •
- Excellent academic credentials.
- Outstanding interpersonal and communication skills, both written and verbal
- Willingness and ability to take initiative and learn independently.
- This role involves extensive travel.
- Base location: Any Location (Pan India)
- No relocation reimbursement will be given.
- Hybrid is our default way of working. Each domain has customized the hybrid approach to their unique needs.

### Location and way of working

- Base location: Any Location (Pan India) – Depends on the business allocation
- Hybrid is our default way of working. Each domain has customized the hybrid approach to their unique needs.

### How you'll grow

At Deloitte, our professional development plan focuses on helping people at every level of their career to identify and use their strengths to do their best work every day. From entrylevel employees to senior leaders, we believe there's always room to learn. We offer opportunities to help build world-class skills in addition to hands-on experience in the global, fast-changing business world. From on-the-job learning experiences to formal development

Programs at Deloitte University, our professionals have a variety of opportunities to continue to grow throughout their career. [Explore Deloitte University, The Leadership Centre.](#)
